Hi Radha,

Thanks again for your application and the time you dedicated to our conversation. We really appreciate that!

We unfortunately decided not to proceed at the moment. The reason for this is that we are currently looking for someone with more hands-on specific experience with PCB design and more specifically with tools such as altium, and, this time, some of the other applicants better-matched that.

While we understand this news may be disappointing, we want to assure you that it is not a reflection of your abilities or potential. It is because of the key requirements of the role, and everyone deserves a job that fits like a glove.

Although this role was not a fit, we are sure that the right opportunity is out there for you. We encourage you to continue to pursue your search and we wish you all the success in finding it!

We hope we'll meet again someday. We'd love to hear from you again.

All the best,

Anika Jusuf

Hi Anika,

Thank you for your quick response and feedback with reasoning. I understand the decision!

Thanks and Regards,

Bhagath Talluri
