Dear Radha Bhagath Rao,

Thank you again for your interest in the position of RF/Microwave IC Designer | The Hague. We have reviewed your motivation and CV with great interest.

Unfortunately, we will not be inviting you for an interview

Selecting the right candidates was a difficult job, given the number of suitable and motivated responses. We have decided to select other candidates whose education, experience and background have more in common with the profile we have in mind. We understand that this is disappointing.

Fortunately, we are looking for colleagues on a regular basis

Do you want to contribute to tomorrow's world? Then simply set up for a job alert on our website. This will automatically keep you informed of new job opportunities by email. Or you can, of course, always check out our current vacancies at www.TNO.nl.

Can we keep your details on file?

We would like to keep your details on file, so that we can contact you quickly if we do have a suitable job opportunity for you in the future. If you are okay with this, you don't have to do anything. If you do not want us to keep your details in file, please let me know and I will delete them.

Thank you for your interest in TNO as an employer and good luck for the future.

Kind regards,

Serge Moesman
